

The Chemistry Companion

Filesize: 8 MB

Reviews

Complete guide! Its such a excellent read through. It is full of wisdom and knowledge I am very happy to inform you that here is the very best pdf i have got study inside my very own daily life and might be he very best pdf for possibly.

(Mr. Ronaldo Kulas)

THE CHEMISTRY COMPANION

To download **The Chemistry Companion** eBook, please refer to the web link under and save the ebook or have accessibility to other information that are relevant to THE CHEMISTRY COMPANION ebook.

Taylor & Francis Inc. Paperback. Book Condition: new. BRAND NEW, The Chemistry Companion, Anthony Craig Fischer-Cripps, Like the author's other companion books, The Chemistry Companion provides-high quality information in unique one-page-per-topic presentations that do not overburden and distract with excessive details. The book offers concise summaries of general chemistry concepts, easily accessible in a convenient, reader-friendly format. Suitable as an introduction or study guide, this companion presents the minimum of what readers need to know to understand the subject. It emphasizes the physics underlying chemistry. By looking at chemistry processes from a physics point of view, readers can better appreciate what is happening from the chemical perspective that is usually found in traditional chemistry books. The author focuses on the structure of matter, chemical components and bonds, the periodic table, states of matter, thermodynamics, reaction rates, carbon chemistry, biochemistry, and chemical, ionic, and electronic equilibria. Each topic is covered in a single-page outline format with just enough detail to enable a good understanding of the subject.
