

Math for Nurses: A Pocket Guide to Dosage Calculation and Drug Preparation (9th)

By Mary Jo Boyer

Lippincott Williams and Wilkins. Paperback / softback. Book Condition: new. BRAND NEW, Math for Nurses: A Pocket Guide to Dosage Calculation and Drug Preparation (9th), Mary Jo Boyer, Compact and easy-to-use, Math for Nurses is a pocket-sized guide/reference to dosage calculation and drug administration. It includes a review of basic math skills, measurement systems, and drug calculations/preparations. Math for Nurses helps students to calculate dosages accurately and improve the accuracy of drug delivery. The author uses a step-by-step approach with frequent examples to illustrate problem-solving and practical applications. Readers will find it great for use in the clinical setting or as a study aid. Practice problems throughout the text and end-of-chapter and end-of-unit review questions will aid students' application and recall of material. A handy pull-out card contains basic equivalents, conversion factors, and math formulas.

Reviews

This book is definitely worth acquiring. I have go through and so i am certain that i will likely to read through again again in the future. Its been printed in an exceptionally basic way in fact it is only after i finished reading this publication in which actually altered me, change the way in my opinion.
